Y3/4—Phoebe Kay

Y5/6—Laura Murray

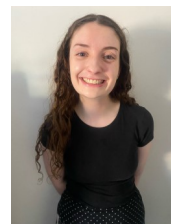

Welcome to Year 3!

My name is Caitlin and I am so excited to teach Year 3 this year.

This year there will be lots of exciting learning opportunities planned for this year. I know the children will continue to try their best and develop their resilience for any challenges they may face. This year will be filled with lots of creative activities to inspire their learning. We are going to be doing lots of reading as a class and I hope to help the children develop a love and passion for reading.

There are lots of interesting topics planned for throughout the year, including rocks, light, electricity, forces and magnets, land sea and sky. In our writing, we will start by looking at a book called 'The Journey', it is a beautiful book filled with some lovely pictures. As part of our geography we will be investigating volcanoes and earthquakes.

For our maths, we will be focusing on our key maths facts such as place value knowledge. We will be covering a range of topics including addition and subtraction and fractions.

Outdoor learning - Wednesday

We will inform parents/carers of where we will be visiting at the beginning of each half term.

As part of our outdoor learning we will be completing a range of activities and projects. We will be going out most weeks so please ensure your child comes with the appropriate clothes and shoes. In the colder months they will need a suitable coat to keep them warm and dry.

We will be looking at a variety of different things, including how to use a fire to safely cook food. We will also be using tools to make a variety of things. The children will develop their knowledge of rope skills and how to make appropriate shelters.

I am really excited for the range of topics we will be covering and having the opportunity to go on different trips.

Reading

Don't forget to keep reading and enjoying books over the summer holidays. Newcastle libraries have lots of exciting events for you to join in with over the holidays.
