Hello, my name is Khadeeja.

I will be your teacher in Year 2 and I am excited to teach you all. I know some of you may have seen me in the main building (top school) and I also got to meet many of you during transition day. I know we will have fun and do lots of great learning together.

In Year 2, we do have choosing time but we like to call it learning jobs so we remember we are still learning through play. Year 2 will still have continuous provision, however as the year goes by we will have to do more super learning. Some of the learning we will do range from using our senses in Science, using maps and creating our own maps in Geography as well as learning about the past in History. There are lots of interesting things you learn during your time in Year 2. Some of these skills and knowledge may link to your Y1 learning but some may be new. I'm sure you will all have a fantastic go. Look forward to teaching you in September. It would be amazing if you could practise reading and writing Y1 common exception (red words) too.

I hope you all have a lovely summer.

## Outdoor learning - Monday

We will inform parents/carers of where we will be visiting at the beginning of each half term. The children will develop and learn a range of skills within the outdoors environment through outdoor learning. Outdoor learning for Y2 will be every Monday. Throughout the year, each term we will have a focus project that allows children to learn skills and be able to use the sequence of lessons to be able to accomplish the end result (also known as Fabulous finish). For example: in the upcoming autumn term we will focus on fire and cooking skills and ensure children are able to cook fruit/food on the fire alongside adults but also learn the skills and knowledge of making a fire too. Other outdoor learning activities may include making shelters, creating a weather chart, using tools to make puppets and many other lovely projects too.

## Reading

Don't forget to keep reading and enjoying books over the summer holidays. Newcastle libraries have lots of exciting events for you to join in with over the holidays.
